Meet Maia

The Maia Institute, a group of Expert Mental Health Consultants, offers services nationwide in both English and Spanish, as well as American Sign Language (ASL), with base locations in Washington DC Metro Area and Northern VA, as well as in the San Francisco Bay Area and Northern California.

Our team has vast experience in clinical and forensic work, academics, and teaching. Exceptional, thorough, detailed, gold standard. Comprehensive evaluations are structured, consulted, and reviewed internally. Consultants are easy to work with, reasonable, assertive, but relatable to jurors.

You can reach us at info@maiainstitute.org or call us at 202-596-9585.

What's new in Maia?

We couldn't be more proud and thankful for the new milestones of our experts!

Congratulations!

Dr. Klein now serves as statewide **Associate Medical Director** for the CA Dpt of State Hospitals. Last semester, she led the first International Symposium on Psychiatry and Psychopharmacology in Nicaragua.

Dr. Morgan is now **Deputy Chief** Forensic Services at Napa State Hospital

Dr. Powers leads as **Chair** of the Forensic Quality Review Panel at Napa State Hospital

What sets Maia apart?

MAIA offers bilingual and American Sign Language (ASL), nationwide consulting experts with decades of experience in psychiatry, psychology, and law; equitable distribution of civil and criminal cases, defense and plaintiff/prosecution.

We understand the needs you have, and the barriers you face in finding and vetting experts.

- **Psychiatry and Psychology:** Every opinion is bolstered by considerations based on medical exam and psychological testing considerations.
- **Multiple Consultants:** Not only will we always have someone available, we have the right one with the narrow focus of expertise you seek.
- **Spanish and American Sign Language:** Very few forensic consultants can conduct these evaluations with native level of fluency in other languages.
- **Nationwide:** Multiple state licensures. No longer having to be relegated to the "same experts as always" in your state.
- **Experience:** all our experts have experience in clinical and forensic settings, and academic and teaching.
- **Exceptional work:** Our consultations are thorough, detailed, adherent to the gold standard of forensic practice, comprehensive, well-structured.
- **Comprehensive Evaluations:** Structured, evidence-based, consulted and reviewed internally for quality.
- **Consultants you want to work with:** Easy to communicate, responsive, reasonable in approach, assertive yet relatable to jurors.

Our team is eager to assist you with any questions you might have about an independent medical examination or consultation on any of our services.

Email or call us and we'll get back to you.
